

# Leak Management Software (LMS)

# Manage your compressed air leaks —

# save your time and costs

The Leak Management Software (LMS) provides a total solution for leak detection, management and easy report creation. The software comes as a local installation on a PC and works seamlessly with our S531 ultrasonic leak detector. Recording leaks in the field using SUTO S531 leak detector and later importing them to LMS software enables users to gather quantitative leak loss data and easily create powerful reports which provide a full overview of the customers' leak situation.

# Benefits

- Simple and user-friendly user interface for easy navigation and leak survey handling
- Reports can be personalized with your own company logo and contact information
- Save your valuable time in report documentation by having a one-click report
- Adjust your reports to local specifications by using the integrated unit converter

#### **Convenient User Experience**

#### Flat Interaction Design Simplify the operation steps

#### Local Installation

Easy to install and save your data locally

# One-click Import and Update

Import and update new leak data just by a simply click

### **Powerful Analysis Reports**

#### Extensive Analysis Report

Leak report with all relevant data

# Personalized Configuration

Upload your company logo, contact person etc.

#### Print Content Optional

Select your desired leaks to be printed

#### Seamless Connection with S531

# 1 Initiation

Enter your own company information like company name, address and contact person etc. to be later printed automatically on your reports.

# 5 Reporting

Generate powerful reports by a simple click of one button. The reports are with your own logo and company info, so you do not have to spend any more time to sort the data and create reports in an external tool, like ord or Excel.

#### Included in S531 for free

When purchasing a S531 ultrasonic leak detector set, one free LMS license is included. Start immediately creating powerful leak reports, without paying extra for additional software licenses.

### Ordering

#### **Leak Management Software (LMS)**

Order No.	Description
M599 7045	Leak Management Software (LMS), Local installation, 1 license (bound to local PC)*, one-time payment

\* The software license is bound to the local PC, still the same software can be used by multiple users on the same PC.

# 2 Planing

Create a new project on the fly directly via the user interface of S531. Define project name, cost and unit settings on site via the touch screen user interface.

# 3 Execution

Use the S531 to perform the leakage survey on site, record the found leaks, which saves the flow, costs of leak loses, take photos of the leaks and record voice memos. All to be used later in generating powerful reports.

### 4 Preparation

After uploading the data to LMS software, users are enabled to easily check the leakage data, add useful information and/or correct date if needed.

# Trial Period

#### Test it for 30 Days!

If you want to try LMS we are offering a 30 days trial period with full functionality.

When the 30 days are due to expire, in order to continue using the software you need to buy a license.
